TERRINet

The European Robotics Research Infrastucture Network

Second Call for Application

We are pleased to announce the opening of the **Second Call for Application of the TERRINet Project**. **TERRINet** is the first **European Robotics Research Infrastructure** able to offer top quality infrastructures, excellent research services and training to a variety of users worldwide.
TERRINet enables you to get **FREE access** to **15 different European Robotics Research Infrastructures** (https://www.terrinet.eu/infrastructures/) to explore your ideas within research projects during a typical stay of 10 days.
Do not miss the great opportunity to get in contact with leading and creative scientists, technologists, experts and industrial representatives who will inspire you.

Apply now!

Visit the application webpage to register and submit your research proposal. You could be granted with funds covering **travel**, **subsistence** and **accommodation** to implement your project at the research infrastructure of your choice.

2nd TERRINet Call for Application – **Important dates**
Opening: Jul 1, 2019
Deadline: Aug 31, 2019
Notification of results: Oct 31, 2019
Access (implementation of granted projects): Dec, 2019 - Mar 2020
